NASHVILLE ARMY AIR CENTER

(A. A. F. C. C.)

THOMPSON LANE, NASHVILLE, TENN.

Hello gang:

we are still here, but expect to go any day, now. The weather here is getting very nice. The sun shines about 16 hours a day and in the afternoon, the temperature goes up to about 70 or 75.

Last Monday, I was building a baseball diamond out in the sun all day long. Boy, I'd like that every day.

That was a tough break, Doug getting gyped out of his spring vacation. what kind of tests do they give at Dow Field?

So Doug is taking a plane recognition course? It seems as everyone in the country is taking them. I told you about our system, didn't I? The W & T system.

what kind of shoes did they give John Dickinson? They gave us regular G.I. and there is nothing wonderful about them. They are comfortable, after you get used to picking up your feet. They weigh about 5 lbs. each. we also got a pair of low shoes. They are much lighter and are a dress shoe.

Did Alan see the fire? The one near Scribner's. I'll bet he liked the fire engine. Will go around the house whoo-who, clang-clang.

I won't say anything about the Vineland job.
(Meet Page, please)

(Here I am again)

How would Col Brush rate head of the dept when he comes back? I don't think I would like

Sillian running the works, either.

I don't know what to get mother for her birthday. I have looked all over Nashville and all of the PX's on the post, and I still can't find anything. I guess I'll send her some cash and let her buy something for herself. I don't like to do it that way, but it seems the only choice.

The govt didn't do so bad on the tires. at work we only allowed \$1.50 on an old carcass. That is, if someone wanted a retread and didn't want have an old tire it would cost them \$1.50 extra. I heard they were only going to give about a dime each.

We just got a new St. in charge of the mess hall. He is Dick Dann from woodbury. I know him pretty well. Boy, I'll eat good now.

Lots of Love,
Frank.
